## DR. HEDGER'S TALK PLEASURES LOCAL CLUB

Gives Suggestions and Hints for the Growing Child

### PLAN FOR "CLEANUP WEEK"

It would seem that nearly every member of the Woman's club was in her place Monday afternoon to hear an address given by Dr. Caroline Hedgers of the Elizabeth McCormick Memorial Fund. We had been led to expect much from this speaker and she did not disappoint us. It is difficult to see how more could have been said in so short a time and in so few words.

Dr. Hedgers is not an educator although she is capable of giving most educators some good pointers. To quote her own words she is "nothing but a doctor." Therefore, it was from the standpoint of a physician that she presented to parents and teachers a plea for "the skinny child," the child all too frequently seen in the homes and the schools, whose underweight and extreme nervous tension tell the story of forced and unnatural development.

In view of the fact that our children are legislated into the schoolroom at so tender an age—at a time when the bony structure of the little body is so susceptible to injury from wrong habits of standing or sitting, she emphasized the necessity of fitting the seat and the desk to the child in order to minimize the danger of causing round shoulders, hollow chests and lateral curvatures of the spine, also to see to it that the teachers to whom we intrust these growing children shall themselves have perfect health and such habits of manner, speech and posture as may be safely copied by these clever little imitators.

It is impossible that so poor a scribe in so limited a space could do justice to this fine lecture. The universal verdict was, "That is the best yet, I would not have missed it for anything."

We suspect that Dr. Hedgers is a "bachelor girl," but she is not that type of a woman who "jumps off the pier" because of disappointed love. She is bravely giving herself to one of the biggest jobs on earth—that of making the world safer for other peoples' children.

A short business meeting was held while waiting for the speaker.

A few matters of minor importance were disposed of. The President called attention to the approaching election of officers and in behalf of the nominating committee urged all members to send in nominations as soon as possible in order that the new officers may be known by April 15th.

A committee was appointed to cooperate with the Village Board, the Commercial association and the Firemen in observing a general and thorough "Clean up and Paint up" week—not a "Clean Up Day" but a "Clean Up Week."

The suggestion was made that the Woman's club consider the advisability or possibility of establishing a library in the community. The suggestion resulted in a lively discussion as to methods of procedure and the general feasibility of the suggestion. Mrs. Mumford in an interesting talk gave some helpful suggestions as to ways and means. The discussion resulted in a committee being appointed to pursue further investigations with that end in view.

Then came the reports from the delegates sent to the District Meeting. These reports are always interesting and inspiring. Always the keynote is the necessity of co-operation and education. The delegates never fail to bring back that message. To that message this time is added. Investigate the character and the record of the men who are asking your vote, April 11th. Remember that privilege brings responsibility. To cast an intelligent ballot according to the dictates of your conscience is as much your duty as to pray "Thy Kingdom Come."

We are helped and encouraged by knowing what other clubs are doing. Through these reports we are told of the money raised for the Home for Crippled Children, for Near East Relief, for Homes for Delinquent Girls, for Library Extension Work, for hot lunches and bottles of milk served to

## Town Topics

The mysterious gang which has been holding meetings at Woodman hall without permission will have to find new headquarters, for hereafter they will find a lock on the door.

One of the "big moguls" of the lodge sauntered into said hall to other morning and said the place looked as if there had been a draw-poker game there the night before and that everybody must have been holding bum hands. A few mornings later the janitor, with orders to clean up the place, found a nice fire still burning in the stove, although there had not been a meeting in the hall for three days. "How come?" asks the "big mogul," and right away orders a lock to be put on the door. So I guess the little "game" will have to be played elsewhere, hereafter.

When the Ford-Waterous fire engine was giving a demonstration a week ago, one old-timer asks of a native farmer what he thought of the stream being thrown by the engine. "Gosh, all hemlocks, that would be a swell contraption for spraying fruit trees." Was it a knock on the engine, or a boost on the Ford products?

That same afternoon when drawing the engine out of the fire station, someone said, "I'll bet Sam is the first one to blow the whistle on the new engine." As Sam mounted the fire destroyer, sure as anything, he grabs for the siren and gives it a whirl and casts a smile that reaches from ear to ear. You win, brother, you win.

Saw Charley Brogan the other morning and he said, "Gosh, I haven't had my name in the Antioch News for a long time. Will you fix me up next week?" Sure thing, anything to please you. Here you are in cap letters, in a line all by yourself—CHARLES BROGAN.

A new sign adorns the front of the Main Garage displaying a Chevrolet advertisement. The sign is pretty nice, but "Doc" Morrell had to break a plate glass window beside the doorway in putting the sign in place. "Doc" always was handy.

Antioch News—"Dear Sir: I got your letter about my account please be patient I will pay you as soon as some body pays me I ain't forgot you if it was judgment day and you was no more prepared to meet your God than I am to pay your bill you would be show to go to hell Goodbye

Just after giving the windows in the News office a good cleaning Saturday afternoon, up steps a joy-killer and says, "You better wrap those windows up, they'll catch cold, because they're not used to water." I know it's been an age since they have had a bath, but—oh, well some folks are like that anyway.

## Wires Were Down; Fordson Pumps Water for Village

Did you know you were drinking water pumped by a Fordson tractor last Friday? Well, you were.

The storm of Thursday and Friday of last week that crippled the light and power supply of Antioch caused the motors at the pumping station to cease work. The old gasoline engine was resorted to, but it was found that the ancient "gas" outfit was not able to supply the demand the village required.

"Bill" Rosing brought a "brand new" Fordson tractor to the pumping house and "hitched on" to the pumping apparatus and kept a steady pull for seven hours without stopping, until the power was restored via the electric route.

## Former Antioch Man Sells Grocery at Burlington

A deal was closed Tuesday whereby Frank Mathews, formerly of Antioch, disposed of his grocery business in Burlington to the National Tea Co., possession to be given about April 15. Mr. Mathews has leased the main floor and basement to the company, but will continue to reside in the flat on the second floor.

Mr. Mathews has been in the grocery business for thirty years, being at Williams Bros. store for a number of years.

### Unclaimed Letters

There remained at the Antioch post-office on Monday, April 3, unclaimed letters for Frank Reschka, R. V. Rogers and Gust Stulke.

## Gravel Tax Carries by Big Majority

The township election held Tuesday proved to be a very tame one, a comparatively light vote being cast.

The gravel tax proposition seemed to interest the voters most and was voted for by a large majority. There were 175 votes favoring the Gravel tax, while 19 voters voiced their opinion against it.

Charles F. Richards had no opposition for the office of clerk and received a total of 183.

The office of assessor was another office in which there was no competition, Harold Gelstrup receiving a vote of 167. Frank Dunn held the limelight for the highway commissioner job with opposition and polled 177 votes.

Comparatively little interest was displayed in the election of Justice of the Peace and Constable. The vote show as follows:

For Justice of Peace—H. Gelstrup 4, Sam Tarbell 4, Chas. Lux 2, Harry Isaacs 1.  
For Constable—R. Stanley Thompson 16, Lewis Felter 2, Sam Tarbell 1.

## Lake Villa Polls Heavy Vote for New Supervisor

At the township election Tuesday at Lake Villa a large number of voters turned out to voice their opinion for the supervisor's office. Harry Stratton, brother of William J. Stratton, State Game Warden, received 214 votes, while his opponent, Barnstable, the present incumbent polled but 134. Albert Kapple was election Township Clerk, while E. A. Wilton was elected assessor. George McCurdy will hold down the Highway Commissioner's job, while Wilbur Weber will take care of the Justice of the Peace job for the coming time. Fred Burke and Leo King were selected as Constables.

## INSTRUMENT PLAYERS HOLD REHEARSAL

A group of young people of the town interested in music met Monday night at the home of G. A. Peterson for the purpose of forming an orchestra and held their first rehearsal.

This is a project that should be encouraged by all and those who are instrument players should give in their names to Mr. Peterson as a candidate. The next rehearsal will be held Friday evening.

Those present at Monday evening's rehearsal were:

Alice Goldy, piano; Ed. Vos, violin; Robert Morrell, violin; Sam Levinson, violin; Mr. Eck, violin; Miss Andrews, clarinet; Earl Horton, cornet; Howard Spafford, cornet; Dr. F. S. Morrell, saxophone; Mr. Bragg, viola; Harold Filweber, drums.

## John Dixon Murray Dies at Gurnee of Pneumonia

John Dixon Murray, formerly of Rosecrans, passed away at his home in Gurnee last Saturday morning. Mr. Murray had been sick only a few days with pneumonia. He was born in Newport, December 12, 1864, and was married 35 years ago to Ida Oliver, of Rosecrans, who survives him. Mr. Murray was several times supervisor from the town of Newport and but lately rented his farm and retired from active work to Gurnee.

He was the son of Edwood and Nancy Murray, of Russell, and leaves four brothers: Edward, of Logan, Utah; William, of Kenosha, Wis.; Robert Lincoln, of Milwaukee, Wis.; and Allan C., of Sycamore, Ill. Also three sisters: Mrs. H. W. Washburn, of Waukegan; Mrs. B. E. Simmons, of Zion, and Mrs. G. S. Burnett, of Zion.

Mr. Murray leaves a host of friends as well who will reverse his memory and useful life.

Burial was at Mount Rest cemetery.

## Pickrel Caught With Net Costs Fisherman \$31

Edward Foss, who lives on the Narrowtown place, west of Fox river in Cuba township, was haled before Justice of the Peace F. L. Waterman by Deputy Game and Fish Warden Leo Riley last Thursday evening on a charge of seining pickrel contrary to law. He was given a jury trial and his case was heard last Thursday evening. He was found guilty and was fined \$25, which he paid, together with costs amounting to \$6.

## Spring Fiction

## 20 Years Ago in Antioch

Thursday, April 10, 1902

Mrs. N. S. Burnett was a Chicago visitor on Wednesday.

J. H. McVey, of Camp Lake, was transacting business in Antioch Tuesday.

Born to Mr. and Mrs. J. J. Moran, of English Prairie, Saturday, March 30, 1902, a ten pound baby boy.

Mrs. John Hancock, who has been spending the winter here, returned to her home at Junction City, Wis., Saturday, accompanied by her little sister Elva who will reside with her in the future.

Charles Morefield, of Milford, Neb., is visiting Antioch relatives and old-time friends. Charley looks hale and says the world moves well with him. He has been in Nebraska 24 years, in fact, has grown up with the state.

Robert Triegar and wife, of Oak Park, were out on Tuesday transacting business in connection with the sale of the Barnard farm which they have sold to Edgar C. Sloan, of Chicago, consideration, \$2,400. Mr. Sloan will build new buildings and reside on the place.

Frank Pitman, Jr., met with a serious accident last week Friday which has confined him to the house. He was working on a scaffold over a cellar way when it broke letting him fall a distance of ten or twelve feet, striking his head on a stone from the effects of which he remained unconscious for some time. The indications are that he will not be to resume work before next week.

Mrs. E. Boylan and Chase Webb were Chicago visitors Tuesday.

## Train Smashes Auto to Bits; Occupants Escape

When a Baltimore and Ohio freight train sideswiped an automobile Tuesday at West 55th street and Seelye avenue, John Kehoe, 40, 7709 South Sangamon street, a Superintendent for Armour & Co. and a passenger in the car, escaped with minor bruises. Joseph Hubert, 40, 1602 West 63rd street, driver of the car, was badly bruised. Mr. Hubert was well known among Antioch people. One side of the automobile was torn away. The frame was twisted. The top part of the car was knocked completely off. One-half of the rear end was demolished. Hubert said he did not see the train approaching.

## Notice to Property Owners

If the property owners who had their property assessed last year in the former owner's name, will notify or call on the undersigned at the office of D. D. Campbell as soon as possible and bring a description of said property with them, the proper name will be entered on this year's book and confusion thereby avoided, when taxes become due next year.

H. Gelstrup,  
Antioch.

### Death of William Washburn

William B. Washburn, aged 67, died Sunday evening at his home in Gurnee, after an extended illness of complications. Mr. Washburn had been a resident of Gurnee for the past 21 years. The funeral was held Tuesday afternoon from the home. Burial was in Warren cemetery.

## BOARD HEARS REPORT ON EASEMENTS

Dr. Warriner Reports Failure of Committee to Secure Right of Way

### WILL TRY OTHER MEANS

After the regular proceedings of the board meeting last night Mr. Roschlein brought up the question of connecting up his plant with the village sewer.

The board passed a motion to take action on plans submitted by Mr. Roschlein after approval by the state board of health.

Dr. Warriner, as president of the Commercial association, reported that the committee appointed by him to secure a right of way for the Public Service company and the telephone company to place their poles and wires in the rear of the buildings in the business section of Main street had been successful in securing the consent of all except one of the property owners concerned.

It seems deplorable that this maze of wires and poles should be left in the street to detract from the completeness of our paving improvement after the committee had so nearly obtained its objective.

It is understood a renewed effort will be made to secure this citizen's consent.

## Dollar Day Will Be Celebrated With Ford Day

Plans for Ford Day are progressing rapidly and from the way things look now, Ford Day will be an affair for young and old, well to be remembered. The merchants are planning to hold a Dollar Day for the benefit of the people who will be in town to "take in" the affair. Practically every merchant has something in which will attract attention and a dollar will be able to do big things on Saturday, April 29, the date selected. The movies are planning matinees for those who do not wish to participate in the plans arranged by the committee in charge. The committees to have the day in charge will be announced later, as will the program of events for the day, which will include races, parade, band concert, lectures etc.

## Felter Asks His Resignation as Village Marshal

At the Board meeting of Village Board Tuesday evening Louis Felter asked that his resignation be accepted May 1.

Mr. Felter has served several years as marshal and has filled the position satisfactorily to the villagers.

No one has been mentioned by the Village President to fill the vacancy, but it thought that an appointment will probably be made at the next meeting of the Village Board.

### \$2,000,000 Estate Left by Baldwin

According to the final accounting in the probate court Monday, Willis M. Baldwin, one time associated with the Galena Signal Oil Co., left an estate close to \$2,000,000. Most of it is left in trust to his son, Lester G. Baldwin, 3849 S. Michigan avenue. Bequests were made to Mr. Baldwin's mother, Mrs. Adelia F. Baldwin, of \$100,000 and his daughter-in-law, Mrs. Myrtle Eckstein Baldwin, \$50,000. Mr. Baldwin died October 8, 1920. Mr. Baldwin formerly owned a beautiful summer home on the west shore of Channel Lake, near Gifford's.

### Horses Not Hitched; Fined \$2

An employee of Mr. W. H. Howe, of Lake Catherine, was arrested on Saturday on Main street for not hitching his team of horses while on a shopping tour of the local stores. He was fined \$2 and costs. The arrest was made by Officer Felter.

(Continued on page 12)

## Fine Fishing at Nippersink Creek

Circling bluffs and in places running almost as swiftly as a mountain stream, is Nippersink creek at Spring Grove. "Bill" Stratton, made state game warden by Governor Small because he knew hunting and fishing, says that there is as fine small-mouth bass fishing in this stream as there is to be found in this part of the country.

Here is the greatest fish story of all: At the same hatchery at Spring Grove is a small-mouth black bass which State Game Warden Stratton says weighs seven pounds. He looks the weight. There are expert anglers who will tell you that this species never run that big, although the big-mouth bass does occasionally, but the bass is on exhibition—and he was caught in the waters

of Nippersink creek, which flows into Nippersink lake at the St. Paul railroad bridge.

## Village Election

Notice is hereby given, that on Tuesday the eighteenth day of April next, at the Village hall in the Village of Antioch in the County of Lake and State of Illinois, an election will be held for the following Village Officers, viz:

Three Village Trustees.  
One Village Clerk.  
One Village Treasurer.

Which election will be opened at 7 o'clock in the morning, and will continue until 5 o'clock in the afternoon of the same day.

Given under my hand at Antioch the 27th day of March A. D. 1922.

Harry A. Isaacs,  
Village Clerk.

30w2

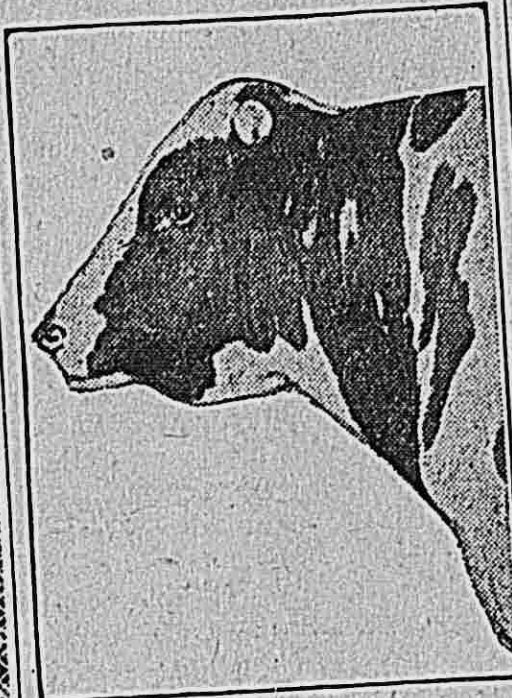

## DAIRY

### BENEFITS OF PUREBRED SIRE

Striking Results Obtained by Maryland Association by Use of Registered Bull.

(Prepared by the United States Department of Agriculture.)

A gain of 17 per cent in milk production and 20 per cent in butterfat production in daughters over their dams because of the use of a purebred bull is the striking result obtained in the New Windsor (Md.) cow-testing association which has a bull association as a subsidiary. The records of 21 cows were compared with the records of their 21 daughters after the latter had become mature cows. The average production of the dams for one year was 5,500 pounds of milk and 219 pounds of butterfat. The daughters averaged 6,523 pounds of milk and 263 pounds of butterfat, a gain over the mother of 933 pounds of milk and 44 pounds of fat. In the association every one of the daughters sired by one of the three association bulls was better than her dam. One of the bulls

A Purebred Holstein Bull.

produced an average improvement in his daughters of 1,414 pounds of milk and 92 pounds of butterfat.

The worth of the purebred sire as an improver of the productive capacity of dairy cows has been measured in a number of localities where there are both cow testing and bull associations. The United States Department of Agriculture has collected figures from a number of communities, but in the past it has been difficult to keep tab on the improvement that bulls have made in herds. The plan of the dairy division now is to get such figures, as far as possible, on cows owned by members in all of the 158 bull associations in the United States.

### MEDIUM SALTING FOR BUTTER

Creamery Men Would Profit by Avoiding Excessive Use of Salt and Packing Tubs Carefully.

Butter that is too highly salted is difficult to move in the ordinary trade channels, and creamery men would do well to guard against high salting unless they have a special outlet which calls for that kind, say specialists of the bureau of markets and crop estimates, United States Department of Agriculture. A gritty condition of the salt in butter seriously injures its market value.

A number of butter receivers are advising shippers not to fill their butter tubs too full. During the summer shipments are often exposed to the heat of the sun at some point in transit, and the butter at the top of the tub becomes very soft and runs over the edge of the tub when handled. Such shipments are brought to receivers' stores in bad condition, often showing a heavy shrinkage in weight, resulting in a direct financial loss to the creamery, which could easily have been avoided by filling the tubs properly. This condition rarely occurs in parcel shipments. When less-than-carload freight or express shipments are made the butter should be thoroughly chilled before shipping.

### SUPPLY OF WATER AND SALT

Two Essentials Should Be Given to Calves After They Have Reached Proper Age.

Fresh water should be supplied to calves more than a month old. In cold weather it is well to warm the water, so that a sufficient quantity to supply the calves' needs will be drunk. A small amount of salt should be supplied to calves 2 to 3 months old. A little may be sprinkled in the feed trough or it may be kept in a box to which the calves have access at will.

Tank Heater Pays Well.  
A tank heater pays big dividends. If the dairy cow be compelled to drink ice cold water she must use heat and energy from her body to raise the temperature of the water up to body heat. This detracts from the energy available for milk production.

Crowding Calves Is Bad.  
The practice of crowding calves closely into small pens or of tying them in dark corners of the barn without permitting them to exercise should be discontinued.

## MICKIE SAYS—

## Notice

To whom it may concern: Please take notice that at the June term, A. D. 1922, of the circuit court of Lake County Illinois, to be held in the court house in the city of Waukegan, in said county and state, the undersigned, Charles Wysocki, will present a petition to the judge of said court, asking that his name be changed to that of Charles Meyers, according to the prayer of the petition. Which said petition is now on file in the office of the clerk of the

circuit court of said Lake county, Illinois.

Signed: CHAS. WYSOCKI,  
30-w3 Petitioner.

## Realistic Cook.

In "Mayfair and Montmartre" Ralph Nevill tells of an old nobleman who said of his cook: "She is one with a great reverence for the Old Testament, who ought to be at a parson's ment, who glories in sending up either a burnt offering or a bloody sacrifice."

## VOTE FOR

Ira E. Pearsall

NOW DEPUTY COUNTY TREASURER

Republican Candidate

FOR

County Treasurer

Subject to the Decision of the

Republican Primaries

April 11, 1922

Your Vote and Support Will Be Appreciated

WM. J. OBEE

Candidate for the Republican Nomination for

County Treasurer

Subject to the Will of the  
Voters at the

Primaries, Tuesday, April 11

Building Contractor and a Member of Lake Co.  
Republican Central Committee for 28 Years and  
Now Supervisor of Deerfield Township.

To the Citizens of Lake County:—

The importance of electing suitable persons to public office is too obvious to require comment. The question is—do all those who fully recognize this fact use diligence in determining who is suitable?

I am a candidate for the office of Probate Judge—there are others. The one elected becomes your servant for four years. Since the duties are exacting and important to all, you certainly will exercise the prudence necessary to the safe employment of other servants. This means the investigation of our respective fitness for the position. I ask for nothing more—you doubtless agree that I am entitled to nothing less. Upon the results of your impartial inquiry, I am content to rest my case on the day of the primaries—April 11th.

Respectfully,  
CHAS. E. JACK.

## Farm Bureau News

C. E. WHEELLOCK of Libertyville, Ill.

### Legume Inoculation

Legumes are valuable for two reasons, one is that they furnish the protein to balance corn, barley, oats and silage and the other is because they store nitrogen in the soil.

Inoculation has to do with their ability to enrich the soil. The ability of these plants to store nitrogen comes from the bacteria on the roots which are grouped in colonies of many thousand bacteria which we commonly call root nodules.

These bacteria have to be placed in the soil by some mechanical means, this might be done by stock ranging over the fields, perhaps blown by the wind or scattered with barnyard manure, clover hullings, etc.

Any of the above ways is only by chance and is not safe to depend on this means of scattering inoculation.

If you are going to sow clover or alfalfa on fields that have not grown this crop for a long time better get some soil from a neighbor's field that has grown a good crop of the kind of legume you are going to sow.

Get about a gallon of soil for each bushel of seed, spread it out in the shade away from the sun and allow to dry. When partly dry sift through a window screen to take out all coarse material, trash, etc. Moisten the seed to be inoculated with a solution made by dissolving seven ounces of glue in a gallon of water. Mix the screened soil with the seed and spread out to dry in the shade. Stir while drying so the seed will not stick together. If they do they may be separated by running them back through the screen.

Soy beans may be inoculated without using glue. Make a thin mud of the soil by mixing with water. Spread this over the beans and allow them to dry.

### Spray Schedule for Apples

As an average four spray applications are necessary as follows:

(1) The Dormant spray preferable about the time the tips of the first buds are showing green, using 15 pounds of dry lime-sulphur to 50 gallons of water. (This may be applied

any time now when the temperature is above the freezing point.)

(2) The Calyx spray should be applied when about three-fourths of the petals have fallen, using 4 pounds of dry lime-sulphur and one pound of dry lead arsenate to 50 gallons of water. (Where there are several varieties of apples that vary some in date of blooming an average date will have to be taken even though some are in full bloom and others have shed all their petals.)

(3) Three weeks after petals fall using same material as in (2).

(4) Approximately nine weeks after the petals fall (exact time according to advice of the extension service which information is available through the Farm Bureau) using two pounds of freshly slacked lime or four pounds of hydrated lime and one pound of dry powdered arsenate of lead in 50 gallons of water.

### Pruning

It is not too late now to prune. Thin out branches that rub or are not growing in the general direction of the main limbs. If the tree has open spaces that need filling in let one or two water sprouts grow in that direction if there are any that can be used.

Cut all branches close to the limb they grow from, do not leave stubs. Limb ends that are cut off should be severed just beyond a bud, if you want the limb to grow upward have the last bud on the top side of the limb, if downward on the underneath side.

A pruned tree does not take as much spray material as an unpruned tree because there are not as many leaves and branches to cover with spray material.

### Test Oats For Germination

A few reports have come to the Farm Bureau office that 1921 oats are not showing a good germination test.

The safest way is to test seed of any kind before planting unless it has already had a reliable germination test.

A good way to test seed oats is to

take some blotting paper and place in the bottom of a dish of some sort, a one loaf bread tin is about right. Use two or three thicknesses of blotting paper in the bottom of the tin. Scatter about 100 grains of oats on the paper and cover with two more layers of blotting paper. Soak paper with water, pour off the surplus water and put the dish in a warm place. It will require moistening occasionally to keep from drying out. In three or four days time the oats will be sprouted showing the per cent of germination.

## "At the Stage Door" at Crystal Saturday Night

With his unique faculty for selecting big and timely themes and developing them into powerful stories for the screen, William Christy Cabanne has achieved another triumph with his most recent R-C production, "At the Stage Door," scheduled for exhibition at the Crystal theatre on Saturday, April 8.

Mr. Cabanne not only directed the production himself, but he also wrote the story, taking for his theme the conquest of temptation by a young and beautiful girl from the country who goes to New York to seek success on the stage. There are two sisters, Mary and Helen Mathews, and they live in a small upstate village. Helen is the younger and is pampered by her mother from childhood, while often Mary sacrifices her own happiness for her smaller sister. When the girls grow up Helen wins Mary's fiancé and they are married, after which Mary, broken in heart, leaves her home and goes to the city to forget. She gets a job in the chorus and subsequent developments make a story of the most engrossing interest.

Mr. Cabanne presents a vivid picture of theatre life in New York and the stage scenes are among the most interesting in the production.

"At the Stage Door" makes no pretention of being a big sermon or problem play. It presents, on the other hand, some good, homely philosophy and is certain to send theatregoers home with a feeling of happiness and renewed faith in the goodness of young women.

### BEST TIME TO DROP CALVES

Question Best Decided by Farm Conditions, Considering Feed Supply, Pasturage, Etc.

The best time to have calves dropped is debatable. Some farmers prefer to have them dropped in late February, in March, or early in April, while others prefer September or October. This question is decided by the farm conditions, taking into consideration feed supply, pasturage, equipment and labor. When calves are dropped in the spring they require less close attention and labor during the first winter and less pasture during the first summer, since cows and calves run together, while the cows may be wintered more cheaply by using a greater quantity of coarse roughage.

However, if calves are born in the fall, the cows are in better condition at calving time; they give more milk for a longer period; the calves make better use of the grass during their first summer; they escape flies and heat while small, and may be weaned just before calving time. Fall calves should not be weaned until they are put on grass in the spring. No matter what system is used, all the calves should be dropped within a period of 60 days to give as much uniformity as possible to the calf crop.

## To the Voters and Property Owners of Lake County:-

The Probate Court deals with the estates of deceased persons, minors and incompetents. More money and property is involved in this Court than in any other. A Probate Judge should be not only a good lawyer but a man of experience and business judgment.

Experience before the courts is necessary to enable him to conduct properly and with dignity contested matters such as wills and claims and to gain for him the confidence and respect of the attorneys who practice in his court.

Sound business judgment is also necessary as he must frequently pass upon questions concerning securities and approve investments for the estates of minors and incompetents.

The question of controlling the costs in estates such as executor's and attorney's fees, etc., is highly important to the interests of the widows and children and calls for real discretion on the part of the Probate Judge. He should be a lawyer with good business judgment as well as with large experience in the

handling of estates, to properly safeguard the rights and interests of widows and orphans having business in his Court.

If you have property in this county this office is more important to you than any other.

My friends will pardon this personal reference but to those who do not know me I will say that I am forty-nine years of age, live at 902 N. Sheridan Road, Waukegan, have lived in Lake County all my life, have a wife and three children, am a University graduate having worked my own way through, have practiced law successfully for fifteen years, have been Master in Chancery of the Circuit Court of Lake County, have had a wide experience in probate matters, have always worked and from the present outlook always will, whether I am elected Probate Judge or not. I ask that you consider the importance of this office and if you believe me worthy and qualified I will appreciate your vote and support.

MARTIN C. DECKER

Candidate for Probate Judge of Lake County

# GRIFFIN FOR SHERIFF

## To the Men and Women of Lake County:

In asking you to vote for and support me, for the nomination for Sheriff, at the Primary to be held Tuesday, April 11, I am deeply appreciative of the preference you have shown, and the confidence you have placed in me during the past.

As a public servant, I have always tried to do my duty regardless of the political consequences to myself. In so doing, I have at times gained the hatred of persons who do not possess a sincere respect for law and order. To such I have no apologies to offer, nor promises to make.

With you, my fellow citizens, my sole recommendation for further favors must be my past record. If you nominate and elect me, I shall administer the affairs of the office I seek, in accordance with the laws of the state and the orders of your courts. I shall endeavor to safeguard your lives and property in-so-far as the office of sheriff may require, I will co-operate with all law regulating and enforcing bodies and officers at all times.

Respectfully Yours,  
ELVIN J. GRIFFIN.

Primary, Tuesday, April 11, 1922

# DOLLAR \$-DAY-\$

will be held in Antioch in conjunction with

## FORD DAY Saturday, April 29

Practically every merchant and business concern in Antioch will have interesting Bargains to offer on Antioch's Biggest Day in History.

Join the Crowd to Antioch for a Day of Pleasure and Bargains

\$1

Read announcements in The Antioch News of what \$1.00 will do on April 29. The News will be distributed FREE to everyone entering to village on that day.

\$1

Watch for a list of prizes to be awarded by local merchants for this big day

**Oakland School**

Editor—Leslie Palmer

Vida Nalmer spent Friday night with Irene Sheehan and Sunday with Leota Nalmer.

Miss McCann spent Saturday and Sunday in Chicago.

The eighth grade is busy reviewing for the final examinations.

Mr. F. M. Sheehan from Lake Forest, spent Saturday and Sunday visiting his parents at Loon Lake.

We are busy working on our bird books and bird charts.

Louis Ruschewski is back at school, after being ill with pneumonia for the past month.

D. Klass went to Waukegan on business on Saturday.

Mr. Eugene and Dan Sheehan served on the jury at Waukegan last Monday.

The storms last week destroyed many of the trees in this district.

Mr. John Nalmer is now able to walk around. He met with an accident while cranking a pump engine and has been laid up for the past few days.

**Emmons School**

Eleanor Cobb, Editor.

Mr. and Mrs. Andrew Cobb motored home from their visit in Colorado.

C. W. Potter visited his wife and children Saturday and Sunday.

Dorothy Banks was in Chicago the first of the week.

J. R. McBride arrived home from Chicago Saturday.

Kenneth Hills has entered our school. Many children were absent on account of the storms.

Raymond Cobb and Neva Blanchard spent Sunday with Mr. and Mrs. Chas. Cobb at Lake Marie.

Rudolph Broms and Edith Erickson spent Sunday with Mr. and Mrs. Ed Dressel.

Wm. Kempe of Milwaukee is visiting Mr. and Mrs. Robert Runyard and family.

**Grass Lake School**

Editor—Arthur Pregenger.

Peter Keifer was absent Friday.

We have many spring bird visitors.

Peter Waldweiler spent Sunday in Chicago.

Louis Forbrick and Edward Frazier are enjoying spring colds.

The lakes are quite high.

Joe Anzinger saw a peculiar bird Saturday and has not identified it yet.

Friday evening a surprise party was given in honor of Josephine Micheli. There were 16 present and they played games until 10:30.

The boys are now playing baseball.

Louis Forbrick was on the sick list Saturday and Sunday.

Mrs. B. Rothers went to Chicago on Sunday evening to do some shopping.

Mr. J. Hanrahan went to town Sunday evening and on the way he had to go through a mud hole, when he was going through the wheel came off.

**Hickory School**

Emily and Elizabeth Wolz were absent last Thursday and Friday on account of the storm.

Fred Pullen quit school last Friday, as it will soon be time to work on the farm. The room seems empty without him.

Fred Ebner was absent Monday and Rose Pedersen Tuesday.

Maude Edwards of Rosecrans spent the week at Hollenbeck's.

Gus Drom spent Sunday with relatives at Hickory.

Guy Hughes and family spent Sunday at Frank Kenney's.

Quite a bit of excitement was caused Monday morning by the arrival of what we all thought to be two strange girls, but on second glance we found them to be Helen and Rose Pedersen. They had had their hair bobbed. Several were so excited that they had to stay in at recess. Rose was so excited that she swallowed a fishbone, when she got home and of course was absent Tuesday. We're all planning on having our hair bobbed now.

**Sulphur Whale.**

The sulphur whale that is found in the Pacific has a peculiar preference for deep water, and is called the bottom whale by many seagoing men. It is frequently more than 100 feet in length, and is regarded by many as the largest mammal that ever lived.

**Why should They?**

The Reformer—"Do you think that statesmanship in this country is on the decline?" The Politician—"My boy, no statesman in this country would decline anything."—London Weekly Telegraph.

**DAILY DAIRY****GAIN OF BULL ASSOCIATIONS**

Increase Attributed to Fact That Farmers Are Beginning to Realize Value of Quality.

(Prepared by the United States Department of Agriculture.)

A gain of 85 co-operative bull associations during the past fiscal year indicates that dairy farmers are beginning to appreciate the value of such organizations. According to the dairy division of the United States Department of Agriculture there were 158 of such associations, as compared with 123 a year ago. This is an increase of 28 per cent, a very satisfactory gain in view of the comparative newness of the plan.

This increase is attributed by the department to the fact that farmers are beginning to become acquainted with the benefits which other farmers have derived from this form of co-operative breeding. Both federal and state workers have found that mem-

Use of Purebred Sires as Improvers of Productive Capacity of Cows is Rapidly Gaining Favor.

bers are being benefited by such co-operative associations even more than the organizers had anticipated.

Some form of co-operative breeding is essential to the proper growth of the dairy industry in many sections of the country, for the reason that the average herd at present is so small that the owner cannot afford to buy a good purebred bull, and it is certain that the herds of the future will not be large enough to change this condition materially. The movement to get more people living on farms and in villages to keep family cows tends to diminish the average size of the herd, for the one or two cows kept by each family are really a herd in themselves, but owners of small herds cannot afford to keep a bull. They, therefore, depend upon neighboring bulls, and the co-operative association is one means of providing for such cows the service of high-class bulls.

The dairy extension men in South Carolina, for example, realizing the importance of the co-operative bull association, have made it a part of their campaign for "two cows to each rural family," and they have set as a goal the organization in their state of 114 co-operative bull associations.

**BEST PACKAGES FOR CHEESE**

Boxes Are Subjected to Rough Treatment in Handling and Should Be Good and Strong.

Certain characteristics of American cheese, most valuable for export purposes, in addition to good flavor, include firm, close-bodied texture, clean and sound rind, and strong, well-made packages. The favored export style is the large so-called "cheddar," weighing from 60 to 80 pounds, although of later years a good many "twins" have been exported. "Twins" weigh about 35 pounds each, and are packed two in a box.

The matter of the package is very important, as the boxes are subjected to rough handling in loading and unloading. The most satisfactory boxes are sufficiently large for the entire cheese, for with a cheese higher than the box, the pressure of other boxes piled on top destroys the shape of the cheese and injures the rind.

It is common in the United States to paraffin most of the cheese marketed a week or ten days after the cheese is made, which permits free moisture to escape and allows for the usual shrinkage. During the spring, summer, and autumn, the use of refrigerator cars, where a temperature of 35 or 40 degrees F. may be maintained, is important in shipping. It has been found as a result of experiments conducted by the United States Department of Agriculture.

**Feed Balanced Ration.**

It is extremely difficult to feed a ration which will cause a starved cow to increase her milk flow. The safest rule is to feed a balanced ration from the beginning, and to provide adequate feed to meet her requirements.

**Satisfactory Flow of Milk.**

Where no effort is made to give cows good care, it is difficult to make them pay their way. They may give a satisfactory flow of milk for a few weeks; but later on they fail to keep the pails filled.

**SHRUBS YOU WILL LIKE**

Home builders who are planning to plant shrubbery on their lawns will find it worth while to make a study of shrubs. Set out shrubs that you will not tire of in a few years. It pays to take your time in selecting. To select intelligently a careful study should be made of the lawn, soil, position of buildings, walks, drives, bodies of water, the surrounding area, and adjacent buildings. Evergreens will not thrive in smoke zones of cities or near factories.

**ASPARAGUS MUST HAVE RICH SOIL**

Delicacy Will Grow in Drained Ground If Plant Food Is Properly Applied.

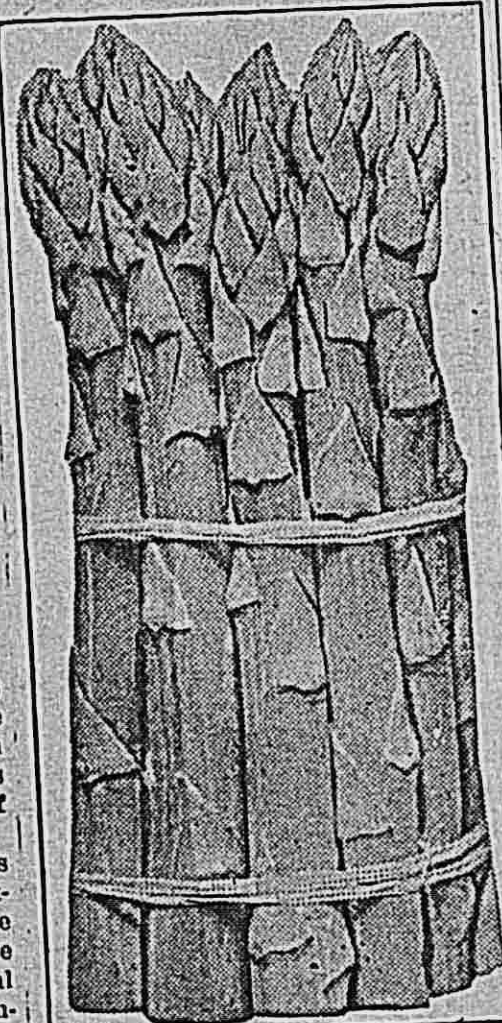

**ROOTS BETTER THAN SEED**

Spring Is Good Time to Transplant—Shoots May Be Blanked by Ridging Up Over Rows With Loose Sandy Soil.

Asparagus should have a place in every home vegetable garden where it will thrive. This crop can be grown on almost any well-drained soil, but will do best on a deep, mellow sandy loam, says the United States Department of Agriculture. There is little possibility of having the land too rich, and liberal applications of partly rotted barnyard manure should be made before the plants are set. The seeds of asparagus may be sown during the early spring in the rows where the plants are to remain and the seedlings thinned to stand 14 inches apart in the row at the end of the first season. It is usually most satisfactory to purchase two-year-old roots from some seedsman or dealer. The roots should be transplanted during the late autumn or early spring.

Before setting out the plants, the land should be loosened very deeply, either by subsoil plowing or deep spading. It is a good plan to remove the topsoil and spade manure into the subsoil to a depth of 14 or 16 inches; then replace the topsoil and add more manure. There are two methods of setting an asparagus bed, depending entirely upon the kind of cultivation to be employed in the garden. If the garden space is limited, the plants should be set in a solid bed, one foot apart each way. In setting asparagus the crowns should be covered to a depth of four or five inches.

The part of the asparagus used as a vegetable is the young shoot that is thrown up during the early spring. The shoots are removed when about four or five inches in length by cutting slightly below the surface of the ground, but care should be taken that the knife is not thrust at an angle or the crowns will be injured. If so desired, the shoots may be blanched by ridging up over the rows with loose sandy soil or by allowing the mulch to remain and the shoots to make their way through it; but unblanched as-

Asparagus Ready for Market.

paragus always has a better flavor than blanched, is more easily produced, and is more satisfactory for home use. Too heavy mulching has a tendency to retard the growth of the shoots by keeping the ground cold until late in the spring.

No shoots should be removed the first year the plants are set in the permanent bed, and the period of cutting should be short the second year. After the second year the plants become well established, and with proper fertilizing and care the bed will last indefinitely. During the cutting season all the shoots should be removed, as the roots will cease to throw up shoots as soon as one is allowed to mature.

**COWS DURING COLD WEATHER**

Few Pounds of Corn Chop Will Help to Provide Body Heat and Keep Up Milk Flow.

During cold weather, dairy cows should be fed a little more grain than during milder weather. A few pounds of corn chop each day during the coldest days will help to provide more body heat and enable the cow to keep up her milk flow even in the coldest weather. It is of course necessary that the cow have shelter and not be exposed to the cold winds. On real cold days a blanket will assist in keeping the cow comfortable.

**COWS LIKE NICE WARM DRINK**

Animals Will Not Consume Needed Amount of Water When It Is Bitterly Cold.

Do not permit your cows to drink ice water, is the admonition of E. A. Hanson, dairy extension specialist at University farm. "Cows will not drink the needed amount of water when it is cold," says Mr. Hanson. "If the stalls are not provided with water buckets, place a tank heater in your tank. It is far cheaper to heat the water with coal and corn cobs in the tank heater than with corn fed to the cows."

Winter Dairying Profitable. Winter dairying is profitable with good care and good cows. Better test your cows, weighing the milk aught and morning for a week or so, and using the Babcock test to find out how rich the milk is.

Will "Dry Off" in Hurry. A cow that is in good condition will keep up her milk flow for a time even though she is under-fed; but gradually her system will be robbed of its surplus flesh, and she will "dry off" in a hurry.

Library of the Lords. The library of the house of lords contains about 60,000 volumes, and they are set out in a luxurious suite of rooms. The library is particularly rich in historical works and memoirs, and includes one of the finest collections of law books in London.

Carte Blanche. "Fuel be mine," said the coal dealer's clerk, proposing to his girl. "I'll always let you have your own weight."—Boston Transcript.

English Mothers Superstitious. In rural England a child born on a Friday is believed to be unlucky, unless a spoonful of salt is tied up in his christening gown.

Paradise Fish. Among the paradise fish China, the male blows bubbles from the front of the body, to the underside he transfers the eggs as are laid, guarding them from his mate.

Efficiency. "Children," said the parent. "Ah, yes; a beautiful child. I have a growing child costs me actually 27 1/2 cents for each tenth of an inch."—Houston Post.

Patience in Government. Patience is a virtue everywhere; but it shines with greatest luster in the men of government.—William Penn.

**Those Poles**  
 Now that Antioch has finally seen its way clear to set up a general plan of improvement it should become the civic pride of every resident to do his part to make our village an attractive sight to visitors and passersby. We should take every means to leave that valuable asset of first impression on every visitor.

Our village with its comfortable homes set well back from the highway with stretches of beautiful lawns with the wide stretch of paved road should leave an enviable impression on the visitors, but—

What of the motely and chaos looking sight that must greet them on their entrance to the fine wide stretch of paving through the business section, poles of all descriptions, lights that can not possibly harmonize with any street, let alone the 54 foot stretch of pavement and last but not least that indescribable mess of wires stretching across, up and down and running at every possible angle.

No doubt the citizens of this village have become accustomed to this sight, but should the citizens pause for a few moments and realize what effect this must have on visitors, they would soon find means of removing this unsightly decorations on our main street.

It seems unbelievable that with the Public Service Co., and the Telephone people ready, at a great expense, to move the poles to the rear of the buildings, that the street and alley committee and the committee from the Commercial association have been unsuccessful in securing a right of way for a set of poles.

**Reasons why GRAHAM should have our support in the primaries April 11**

THOMAS R. GRAHAM, Democratic candidate for state representative for the General Assembly, was born in Lake County, where he has continuously resided up to the present time. A product of the farm, he continues his occupation as a farmer and is also engaged in the real estate business and a heavy taxpayer.

He served for 14 years on the county board, of which body he was chairman for two years. For three years he served as a member of the board of review, serving as its chairman the last year. Mr. Graham was first elected to the state legislature in 1912 and was three times re-elected, serving eight years in all.

As a member of the legislature, he always stood for democratic principles and was a power in the policy of his party in state affairs. His record was without a blemish and his many friends state unhesitatingly that he voted at all times for the best interests of the electorate of Lake, Boone and McHenry counties.

He now stands for legislation which will bring about reduced taxes, by avoiding reform legislation for fads and standing for laws which will work for the best interest of the people. As one of the champions of the good roads bill, he now favors at least two good roads through the heart of the counties in his district. He wants the license derived from automobiles to be used for the maintenance of all roads and not to be diverted for useless fads.

**PRIMARY DAY, TUESDAY, APRIL 11**

## High School Happenings

Editor-in-Chief .....Beulah Drom  
Junior Class .....Anna Kret  
Sophomore Class .....Ada Chinn  
Freshman Class .....Edith Edgar

Ada Chinn was absent Tuesday on account of sickness.

The Design class is designing gingham and party dresses for themselves. The Home Economic class is weaving carpets for—oh, their mothers, of course.

The General Science class is printing pictures whenever the sunshines.

Marguerite Grice sprained her ankle Wednesday. Poor Marguerite.

George Smale was absent Monday but doesn't tell why or where he was.

Can any one account for Dwight's stiff neck? Was it because of a fight caused by his invented "persuader" or was it on account of the Sophomore girls?

Francis Proffitt withdrew from school Tuesday.

Some of the famous athletes are looking quite bruised from vaulting. Others thankful that they didn't risk their life in the attempt.

The Agriculture boys are seeding the terrace and the lawn. The students are requested to start from home earlier so that they won't have to cut across the lawn.

George and Ella Anzinger have been absent on account of the roads.

The fifth period Geometry class are become warm and worn because of the exams Tuesday and Wednesday.

The Physics class finished "Heart" with an exam Monday and have started Magnets and Electrostatics.

Gertrude Winnis and Marjorie Walsh were absent on account of Lake Villa's excellent roads.

Margaret Jack seems to think she is becoming quite an ostrich, at least that is the way it looks by the material she plans to eat.

Why are the Literary Digests so popular during the noon hour? Ask "Tiny Tim" or our popular Freshman.

Honorable W. Chinn, Bussie Keulman, Zeke Ames and Irving Elms had an experience oft enjoyed by travelers. Mr. Bright playing the part of the revenue officer and the boys the smugglers. Nuf sed.

European History class is having a trying time.

Antoinette Smart and Elynore Dodge are back in school again.

"I feel twenty years younger," is what thousands have said after Tanlac restored them to health. Try it. S. H. Reeves.

Hunt Oil Wells With Airplanes. Airplanes are being used in South America to search for oil wells in swampy jungle land, where it bubbles up the oil kills all surrounding vegetation, thus making aerial observation easy.

## Local and Social Happenings

Miss Dorothy Banks spent the first of the week with friends in Chicago.

Miss Edna Richards is spending the week at Kelly's at Racine, Wis.

Mrs. L. A. VanDusen is entertaining her sister, Mrs. Smith, of Gary, Ind.

Frank Kavanaugh, of Chicago, called on relatives and friends here, Saturday.

Mr. and Mrs. O. G. Nelson, of Sandwich, Ill., spent last week with their daughter, Mrs. Ben VanDuzer.

Mrs. George Kelly and little daughter Katherine, of Racine, spent the past week with Antioch friends and relatives.

The kitchen for the new bakery in the Masonic building is being erected. The outer part being of cement block structure.

The three daughters and son of Dr. Schroeder, of Chicago, spent the past week at their summer home, on the north banks of Channel Lake.

George B. Bartlett's picture appeared in the magazine section of Herald-Examiner on Monday morning, being photographed with the members of the jury for the Small hearing.

Mrs. George Kuhaupt and daughter, Miss Viola and Mrs. C. Buschman were in Trevor Tuesday at a dinner in honor of Mrs. Baethke. Miss Viola spent the remainder of the week in Milwaukee visiting relatives.

The following card was received from E. R. Williams at West Palm Beach, Fla.—Mr. and Mrs. E. B. Williams in company with J. P. Johnson and wife of Bluff Lake, motored to Palm Beach, and Miami. Report sun pretty hot but always a cool breeze. All are well.

The male portion of the scholars at the high school have been reporting as early as 7:30 in the morning, due to new athletic equipment. Pole vaulting and discus throwing are among the new stunts and is making quite a hit with the boys.

Tanlac builds up the weak, run down system and makes you feel strong, sturdy and well, as nature intended. S. H. Reeves.

Notice  
Dr. Hanoka has moved his office from Antioch to Richmond, where he will have office hours the same as he had while in Antioch. 29w4

**Home Bakery Sale**  
at A. P. Store  
Saturday, April 8  
at 3 P. M.

Benefit Parent-Teachers' Ass'n  
Also receive donations of bakery goods to be resold

Mrs. Smale was a Chicago passenger Monday.

Mrs. A. Lynch was a Chicago passenger Monday.

Mrs. Jake Drom was in Milwaukee the past week getting acquainted with her new granddaughter, who arrived at the home of Mr. and Mrs. William Prohl recently.

The cantata to be given by the Sunday school of the M. E. church on April 7 has been postponed on account of illness of some of its participants, and will be given at a date in the near future.

Mrs. Eck has opened her restaurant and ice cream parlor for the summer season. The place is all ready to handle the summer trade and adds greatly to the appearance of the corner.

According to the Waukegan Sun, squads are to be put on the job to round up the auto owners who haven't a '22 license on their machines. The campaign includes all Lake county.

Three motorcyclists came through Antioch Sunday afternoon. They were skidding from one side of the street to the other. It takes a brave person to try to ride any kind of a machine the way the roads were Sunday.

"Where there is smoke, there is always fire," so when twenty million well-known men and women in all walks of life say Tanlac is a good medicine, there must be something to it. S. H. Reeves.

When you want to buy a car, ask the dealer where you can get parts and service. You can get Chevrolet parts anywhere you are. All cars need parts some time.

**F. S. MORRELL**  
Chevrolet Dealer  
Tel. 112-J Antioch, Ill.

Plenty of Chevrolet parts in Antioch

## TOOLS THE BUSY GARDENER NEEDS

Hoe, Rake and Spade, the Combination Soil Tillers Find Absolutely Necessary.

WHEEL HOE IS LABOR SAVER

Little Implement Suitable for Small or Large Garden; Trowels Are Handy; Spraying Outfits Are Essential.

With the first warm days of spring sounding the earth call, there is a hasty scurrying around for the tools of the gardening cult. A gardener can get along fairly well with four, a spade or spading fork, a hoe, a rake, and a trowel. It is even possible to get along without the last, but who wants to?

The art of gardening is reaching such a point of special development that there are tools for almost everything and the wise gardener by a careful selection will ease his work as much as possible by securing appropriate working implements.

The greatest labor saver for gardens of any extent is a little wheel hoe. This saves many a headache, does the work thoroughly, and has appliances for various purposes which are interchangeable from a little plow share to cultivators of various kinds. It can be used in the smallest garden.

There are numerous hoes of various types and designed for different purposes. The pointed hoe for making rows is a convenient tool. The hoe with rake teeth on the back of the blade is one of the very handiest all-around garden tools for light work there is. It is particularly well adapted for women gardeners. Three toothed cultivator hoes do a fine job of stirring the soil. Shovel or shovel hoes as they are sometimes called that can be pushed instead of pulled, permit hoeing rows which are too close to walk between conveniently.

Trowels of various shapes to suit various plants are now on the market, stiff, sharply angled small bladed trowels are ideal for splitting off pieces from perennials which have grown so large they need dividing for their best growth. They are fine to set under a recalcitrant carrot or parsnip whose leaves are so tender they part company from the root, leaving it in the ground.

Long bladed trowels are especially adapted for digging holes for gladiolus or other bulbs in the spring and tu-

lips and fall bulbs later in the season and equally useful in digging them up.

There are little hand rakes which are just the thing for hand cultivation among plants which need special care and the earth kept stirred.

Sprinkling cans and sprays must be added to every well regulated garden outfit, especially a spray.

While looking over spraying outfits get in a supply of poison for the pests that devour and for the fungus that blights. The seedsman will tell you what to get. Bordeaux mixture for fungus pests, paris green or some other arsenical poison for those that eat the leaves, and a tobacco poison of some kind for plant lice are standard. Often they can be bought in combination.—National Garden Bureau.

**FRESH VEGETABLES EVERY DAY**

What is a back yard good for? It may be made to supply the average family with fresh vegetables through the growing season.

**SUNDAY SERVICES:**  
 Sunday School ..... 9:45  
 Morning Service ..... 11:00  
 Epworth League ..... 7:00  
 Evening Service ..... 7:45

The two coming Sundays are great days in all the churches.

Next Sunday is Palm Sunday, the anniversary of the day when Jesus was hailed by the great throngs as the Messiah. The churches use this fitting day as the great day for all the people now to hail Christ as Saviour and Lord and take their stand for Him, to live for Him and work for Him.

Then, the following Sunday, Easter

Sunday, April 16, the great anniversary of Christ's triumph over death, is used by the churches as the day for enlistment of the people in His conquering army, which is His church. Thus Easter has become the great Join the Church Day.

Both these days will be observed in this church with special services at both morning and evening church hours.

The services at 11 a. m. and 7:45 p. m. the coming Sunday will be highly specialized as evangelistic and all are most cordially invited to be present and add their acclaim to that of the multitudes, hailing Christ as their Lord and Saviour and pledging themselves to follow Him wherever He shall lead. At the evening service there will be a duet by Mrs. Leonora Hughes and Mrs. Hester Garland. There will be special music at the morning service also.

The Easter services, morning and

evening, will be enriched with beautiful Easter music, and the precious opportunity of enlisting in the triumphant army of the King of Kings will be given to all who have taken their stand to live for Him and follow Him and work for Him. This enlistment as soldiers in His army, members of His church, will be open for all at both services. Also, the sacrament of baptism will be administered to all desiring, adults, youth, children and infants, at both morning and evening services.

One of the most vital things now being stressed by all the churches is that there should be no man or woman nor any child over nine, without active membership in some church where he or she lives. Every church is insistently urging that everybody immediately take membership in some church in his own community. Each church is strongly urging its own members, who happen to live where their own church is not organized, to become members of some other church which is effectively doing the work of Christ.

Thousands of Methodists, living in communities where there is no Methodist church, are becoming members of other churches—Baptist, Presbyterian, Congregational, Lutheran, etc. This is upon the urgent advice of our Methodist leaders. In like manner thousands of each of the other churches—Presbyterian, Baptist, Lutheran, Congregational, etc., living where their own church is not running, are uniting with the Methodist church, or which ever of the other churches is really most effectively doing the work of Christ in the community. And this, too, is upon the urgent advice of the leaders of these other churches.

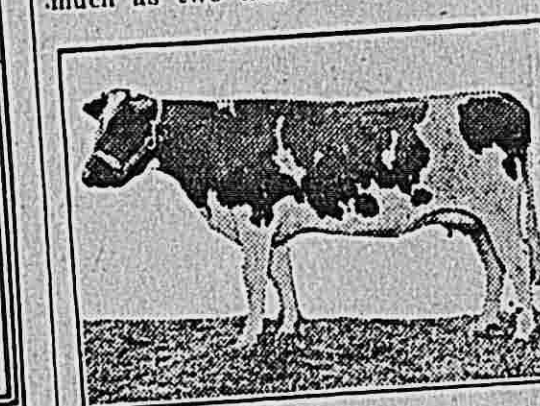

This is the real church co-operation for which the world has waited so long. It marks a great leap forward in the coming of the Kingdom of God, the passing of the old sectarian jealousies and prejudices, and the ushering in of the good, new days of loving brotherhood between the churches. This new and happy day should not be held back or darkened by any individual members of any churches refusing to co-operate by refusing to be members of some other church where they live.

### COW TESTING BENEFITS HERD

Profitable Results Obtained by Members of Organization in Wisconsin Community.

(Prepared by the United States Department of Agriculture.)

"As members of the Cedar Grove cow-testing association for the past three and one-half years we have obtained some profitable results," writes the owner of a Wisconsin farm to a field agent of the Dairy Division of the United States Department of Agriculture. "When we started, our herd averaged 11,820 pounds of milk and 410.2 pounds of butter fat, while last year our average was 13,737 pounds of milk and 502.2 pounds of butter fat. We were encouraged by our tester to mix our rations before feeding and to milk some of our cows three times a day, which in one instance brought an increase in production of over 3,000 pounds of milk in the year.

Testing Association Helps Farmer to Increase the Milk Flow By Better Feeding.

day. Cow testing also showed the difference in the profits of the different cows. Some of the cows made two and one-half times as much as other individuals do.

"It was through the tester's suggestion that we started in with purebred cattle in earnest, and some day we are going to have a good purebred herd. Another thing the testing showed us is that we had sold a registered bull to be slaughtered which had five daughters that averaged over 13,300 pounds of milk and 525 pounds of butter fat. A lesson like this one will be remembered a long time.

"Putting it in few words, our association work helped us to feed, care for, and improve our cattle and study the results obtained.

W. W. RUNYARD, Secretary.

## T. Arthur Simpson County Superintendent of Schools

Candidate for the Republican nomination for the same office at the primary election of April 11.

Mr. U. J. Hoffman, State Supervisor of Rural and Village Schools in a report made last November said:

"The first inspection trip I made revealed the fact that Lake County country schools were as poorly provided for as any in the state. The County Superintendent co-operated vigorously with this office to get as many of the schools to meet the standard, which was set by this office, as possible. He was very successful in this. The school officers and people responded well to the suggestion for improvements. Taking the entire county into consideration, the improvement that has been made since my first visit is remarkable. With the improved physical conditions has come improvement in the teaching."—Adv.

### Let Us Listen.

Let us listen only to the experience that urges us on; it is always higher than that which throws or keeps us back.—Maeterlinck.

### History of the Banjo.

England obtained the banjo from America. It was brought to this country by the negro slaves. The idea originated in India.

### Lotus Camp No. 557, M. W. A.

Meets at 7:30 the first and third Monday evening of every month in the Woodman Hall, Antioch, Ill. Visiting neighbors always welcome.

W. A. STORY, Clerk.

J. C. JAMES, V. C.

### To The Public

Rumors have been circulated that in the event of the election of Elvin J. Griffin as sheriff I will remain as chief deputy. In order that my friends may be set right in the matter, I wish to state that I have arranged to devote my entire time at the end of my term of office to business affairs in which I expect to be interested.

I desire at this time to thank my loyal friends who have supported me in the past. I hope that my record in this office may have been such as to merit your continued friendship and esteem.

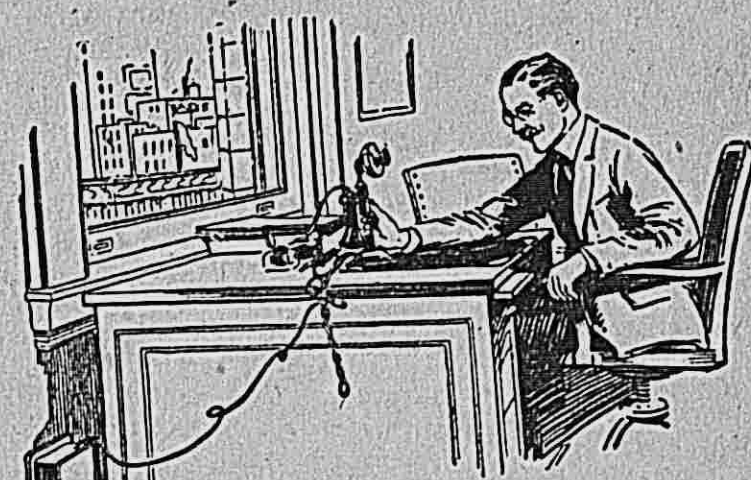

Respectfully yours,  
 Adv. ELMER J. GREEN, Sheriff.

### His Busy Days.

Many a man can't settle down to enjoy life because he's kept too busy raising the cash to settle up.

Under the provisions of the Illinois real estate law which was enacted by the fifty-second general assembly, every person in Illinois who engages in the real estate business, either as a broker or salesman, after January 1, 1922, must be registered as such. This applies to practically every sale of real estate where the seller is not the actual owner or where the sale is not made under a court order. A penalty is provided in case of violation of the law of not less than one hundred nor more than one thousand dollars, or imprisonment for not more than two years.

Hunt Oil Wells With Airplanes. Airplanes are being used in South America to search for oil wells in swampy jungle land, where it bubbles up the oil kills all surrounding vegetation, thus making aerial observation easy.

## Knotted Cords Make Noisy Lines

The cloth-covered cord which connects your telephone instrument with the bell box and the cord running to the telephone receiver are each made up of a number of fine wires covered with light insulation. If these cords were not made in this way they would not be flexible. They are necessarily delicate and easily put out of order by misuse.

Subscribers are requested to avoid twisting and knotting the telephone cords as this wears through the insulation, breaks the fine wires and causes short circuits. The first effect is usually a scratching noise in the receiver and later the telephone is put out of service entirely.

ILLINOIS BELL TELEPHONE COMPANY

## ADDISON M. SHELTON Candidate for State Superintendent of Public Instruction

at the  
 Republican Primary  
 Tuesday, April 11th

Vote for Shelton because:

He stands for efficiency and economy in school affairs. He is for better schools and a more equitable distribution of school support.

Training: Southern Normal; University of Illinois (A. B. degree). Experience: rural teacher, village principal, city superintendent, County Superintendent, McHenry County 1910 to date, President Illinois Educational Commission 1921 to date.

Save the Educational and Financial Waste!

Vote for State Superintendent of Public Instruction

☒ ADDISON M. SHELTON

## HENRY R. RATHBONE Candidate for Congressman-at-Large

at the  
 Republican Primary  
 Tuesday, April 11th

Vote for Rathbone because:

He has always been a Republican, in defeat as well as in victory. He is an able lawyer, an eloquent and forceful speaker and a public-spirited citizen with the best interests of Illinois at heart.

The son of parents who were close friends of Abraham Lincoln, he was reared in an atmosphere of patriotism and unadulterated Americanism. His nomination and election will add a valuable man to the Illinois delegation at Washington.

## The Spring Thaw

[National Crop Improvement Service.] There is one great subject upon which the commercial clubs in the towns and the farm bureaus in the country, may well unite. In the old-fashioned days it seemed that winter generally came to stay and we had only one spring thaw, but of recent years winter is very intermittent and we are likely to have a spring thaw every other week.

Every time one of these thaws occurs, it puts business on the hummer. Farmers cannot get to town and merchants cannot send out goods on telephone orders.

In the old days the farmers became reconciled to this condition and like the old man who, when asked to shovel the snow off his sidewalk, he replied: "Well, the Almighty put it there and He kin take it off again."

The upheaval of frost is the concrete road's worst enemy. Both sides of the road rise with the frost in the fall and lower with the thaw in the

spring or what is worse, it it freezes one week and thaws the next, this motion will soon break any concrete road unless it is re-enforced with steel fabric.

Steel re-enforcement unites with the concrete, the two practically expanding and contracting equally.

Prof. Duffy Abrams, in charge of structural research work at Lewis Institute, Chicago, claims that the older a concrete road is, the better it is, and he gives figures to substantiate his statement. The main reasons why a concrete road will break up under stress are because the foundation has not been properly laid; the sand and gravel were not properly cleaned, therefore cannot unite closely with the cement; the slab has been too thin and, perhaps, greater than all, the concrete was not properly re-enforced with steel.

Professor Abrams says: "Concrete in roads does not deteriorate in strength with age."

## RHUBARB ONE OF BEST PRODUCERS

Early Spring Vegetable Responds to Liberal Supply of Best Soil Available

### PLANT IN OUT-OF-WAY PLACE

Along Garden Fence Where Roots Will Not Be Injured in Cultivation of Rest of Garden is Good Location.

Rhubarb, or "pleplant," as it is sometimes called, cannot be grown universally, but is limited to certain definite sections. Information as to whether rhubarb will or will not grow in a given locality can be obtained from the local seedsmen or from neighbors who have had experience in growing it.

Rhubarb is propagated by planting pieces of the roots secured by dividing older hills, and six to ten hills will usually supply plenty of rhubarb for the average family, states the United States Department of Agriculture.

Rhubarb should be planted exactly the same way as asparagus, that is, the roots or crowns should be covered four or five inches in deeply spaded

Rhubarb a Generous Producer.

and well enriched soil; there is little danger of having the soil too rich for rhubarb. The hills should be three and a half to four feet apart, if more than one row is planted.

This wonderful staple of the family garden can generally be planted along the fence where it will be out of the way of cultivation.

The thick leaf stems are the part used, and none should be pulled from the plants the first year after seeding, but a large supply will be available the second season, and the hills will, as a rule, continue to produce satisfactory crops of stems for several years, after which they should be divided and reset.

Rhubarb should receive the same attention and treatment during winter as asparagus, and the plants should never be allowed to ripen and seed. The roots may be brought into the greenhouse, pit, coldframe, or cellar during the winter and forced.

By placing a barrel over a rhubarb plant much longer and tender stalks may be grown.

This is one plant that does not thrive in warm climates. It is most popular, especially in the sections where it is grown, in the early part of the spring.

The use of rhubarb is principally for making pies and sauces, and many housewives can the stems for winter use.

## Come To Our Store On April 14 and 15

The Devoe Interior Decorating Expert Will Show You How to Bring Out the Hidden Beauties of Your Home

WOULDN'T you like to have expert advice and color suggestions on how to make your old scarred furniture, floors, woodwork and bric-a-brac new-looking and artistic again?

Wouldn't you like to know how to transform rooms that are now lacking in distinction into gems of interior decoration?

That's just what the Devoe Interior Decorator will be here for.

She will show you how to brighten up the gloom spots in your home. She will show you how, with a little Mirrolac and Velour, brushes, and a few hours of time, you can add more beauty to your home than if you spent several hundred dollars for new furniture and decorations.

Mirrolac and Velour are wonder products. Mirrolac restores scarred surfaces to their original beauty as if by a "magic touch." It gives new expensive wood a finish that imitates perfectly the appearance of more expensive woods, such as Oak, Mahogany and Walnut.

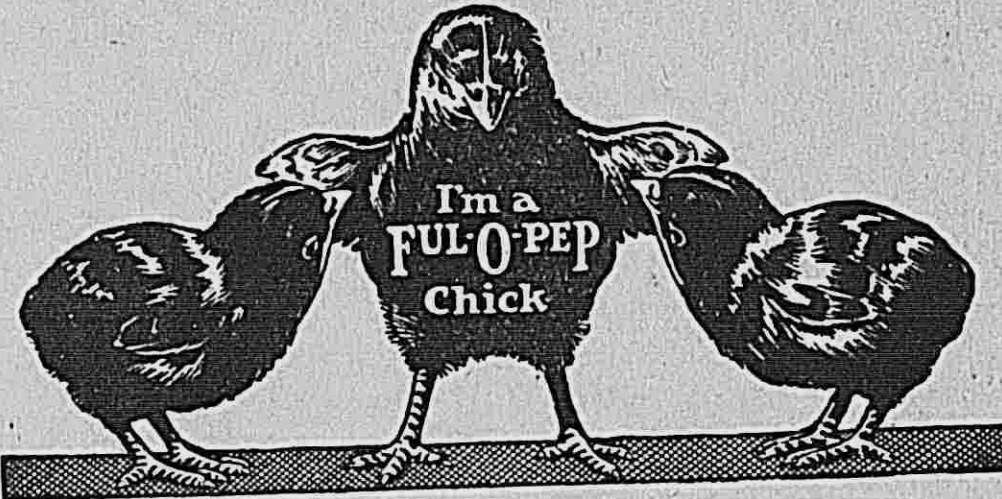

Velour is the ideal Flat Wall Finish which perfectly illustrates a principle that every great artist insists upon; namely, that there is no necessary conflict between beauty and utility; but they are rightly considered one and the same thing.

The Devoe Expert will be at the service of our customers on the dates noted above. There will be absolutely no charge for her advice. Come in let her help you with your home decorating problems.

**FREE** Present the coupon properly filled out, at our store during the dates noted and get a 30c can of Devoe Mirrolac FREE or 30c off on a larger can. Free cans given to adults only.

## Raise 'em The FUL-O-PEP Way

The Ful-O-Pep Way of Feeding chicks has changed the old expensive "grain feeding way" and has proven to poultry raisers that the old method of grain feeding is all wrong. The Ful-O-Pep Way of feeding

**Gives You 1 Pound of Gain at Cost of 2 Pounds of Feed**

instead of only 1 pound of gain to each 4 pounds of feed, which is the basis of figuring cost of production arrived at by experiment stations covering several years experiments with grain feeding. Why continue to feed this old expensive way when The Ful-O-Pep Way will give you the same gains with only half the feed?

## FUL-O-PEP GROWING MASH

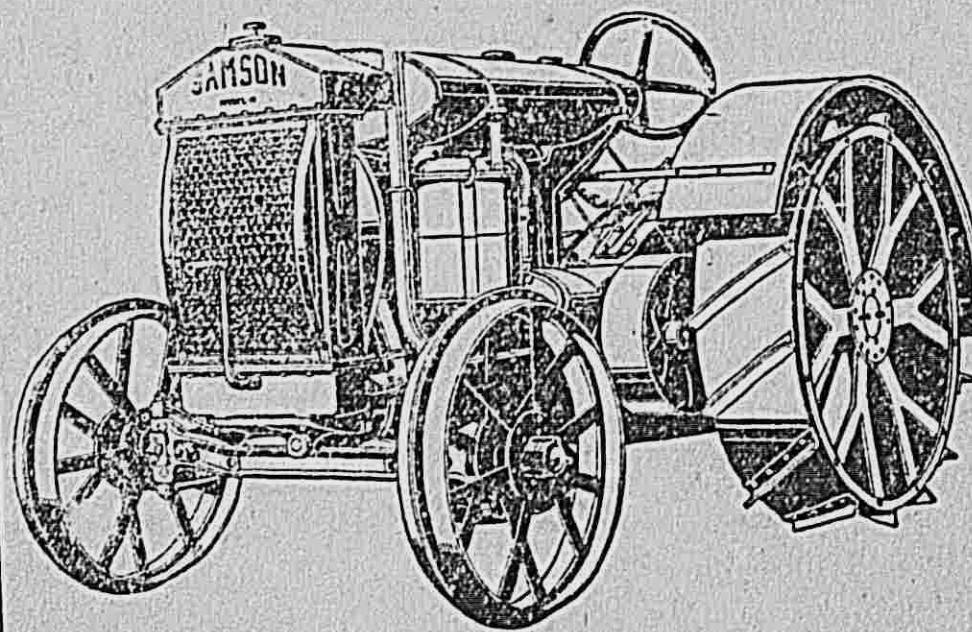

**Costs Less Per Pound of Gain Made Than Any Other Feed**

The Ful-O-Pep Way consists of feeding Ful-O-Pep Growing Mash from the very start—continuously keeping it before your birds all the time. Ful-O-Pep Growing Mash, because of the high feeding value of its Oatmeal, fish and bone contents goes twice as far as grain feeds—every ounce is digested by chicks' delicate digestive organs—there is no waste and when compared with results cost only half as much in pounds of feed consumed for gains in pounds of meat produced. Furthermore, your losses from bowel and digestive troubles that arise from feeding hard indigestible grains, will be very much less and your flock will be of even growth and development. Give The Ful-O-Pep Way a trial this season—it will reduce your feed costs and materially increase your profits.

## PRESIDENT HARDING BLAMES OPERATORS FOR BIG STRIKE

PLACES RESPONSIBILITY FOR THE MINERS' WALKOUT UPON PENNSYLVANIA OWNERS.

ORDERS 'HANDS OFF' POLICY PENDING REAL EMERGENCY

Statement issued at White House Gives Analysis of Steps Taken by the Government to Bring Both Sides to Dispute Together.

Washington, April 1.—President Harding believes that responsibility for the strike of 500,000 coal miners rests entirely upon the operators of western Pennsylvania, who have consistently turned down governmental efforts at arbitration.

This was revealed by an administration spokesman directly after a cabinet meeting, which failed to produce a solution.

The cabinet meeting was anxiously watched in hope the government, in an eleven-hour appeal, might prevent the strike. Later in the afternoon, however, announcement was definitely made at the White House that the administration "had done everything it has thought seemly to do to prevent suspension of operations."

The government will keep hands off "until something happens," it was indicated.

Pennsylvania Operators Blamed.  
This statement was followed by an analysis of steps taken by the government to bring both sides to the dispute together. Only the obdurate attitude of the western Pennsylvania operators, it was said, had prevented this attempt being successful.

From the White House came the following statement regarding the situation:

"The government began as early as last October to bring operators and miners into conference to effect an agreement without suspension. At that time the mine workers would not give consideration to the proposal until after they had held their annual convention, when they agreed upon wage schedules.

"Later they indicated a desire to arbitrate. Then the government sought to bring the operators in. The operators of three states indicated that if all the other operators came in they would agree to a conference. The operators of western Pennsylvania refused to confer, stating they could see no chance of success in such a conference with representatives of the miners.

"To this appeal on the part of the President, Secretary of Labor Davis and Secretary of the Treasury Mellon added their voices. But the operators of western Pennsylvania remained obdurate."

Will Await Real Emergency.  
Federal intervention in the strike will follow only in case of a public emergency, it was learned authoritatively at the White House. Only in case of threatened paralysis of railroads and shutdown of essential industries will the government take a hand, it was said. No attempt at compulsory arbitration or at a compulsory conference is to be made until the economic structure of the nation actually is threatened.

In other words, the administration is going to play a game of watchful waiting until accumulated coal stocks are exhausted or the miners return to work. Neither President Harding nor any of his advisers will even discuss the necessity of using the army to guard mine properties or to prevent strife between union and nonunion miners.

The statement was made at the White House that "the government has had no thought that this dispute will lead to conflict."

Miners Have Big Strike Fund.  
Without trouble, the nation-wide strike of coal miners, involving 500,000 union men, started.  
Industry in the United States will depend on coal now in storage and on the output of nonunion mines, chiefly in West Virginia and Kentucky.  
In Indianapolis, John L. Lewis, international president of the miners, predicted that the shutdown would be complete in 20 states and that at least 100,000 nonunion employees would join the unionized forces in the strike.  
The Mine Workers' union has a big strike fund on hand. In Illinois in the last two years it has collected \$7,750,000 from its members. It is estimated that the national strike fund is between \$20,000,000 and \$30,000,000.

Pennsylvania Leads in Members.  
Pennsylvania turned out the largest number of men, and other states affected are West Virginia, Ohio, Indiana, Illinois, Iowa, Missouri, Kansas, Oklahoma, Arkansas, Texas, Alabama, Tennessee, Kentucky, Maryland, Michigan, Montana, Wyoming, Colorado and Washington.

## SHE DYED A SWEATER, SKIRT AND CHILD'S COAT WITH "DIAMOND DYES"

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her worn, shabby dresses, skirts, waists, coats, stockings, sweaters, coverings, draperies, hangings, everything, even if she has never dyed before. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is sure because Diamond Dyes are guaranteed not to spot, fade, streak, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.—advertisement.

Dog Really to Blame.  
With the revival of Whistler anecdotes Mortimer Menpes' story of the master's only "shoot" comes once more into the picture.

The great man took careful aim, and brought down—his host's favorite retriever.

"It was a dog without artistic habits," he explained, "and had placed itself badly in relation to the landscape."

En Passant.  
"The big bum," explained the shrimp for the benefit of a group of friends, "the big bum was standing on the corner when I passed by with several ladies. He saw me and I said to him in passing:  
"Don't speak to me in public," I said, "because if you do I'll just bust your face on the sidewalk."  
But the same big bum happened to overhear the shrimp relating the incident.  
"You said all this to me in passing?" he demanded, threateningly.  
"Y-y-yes," stammered the shrimp. "But we were passing in a car at about 50 miles an hour."

Where Patience Is No Virtue.  
The absent-minded friend drove her car into town last week. Following the traffic she turned into a side street and came to a standstill behind a line of motors.  
Remaining stationary until her patience was exhausted, she honked her horn to its fullest extent. The result proving unsatisfactory she tried it again.  
"Hey, there, lady," came the voice of the irate officer, "if you'll come out of the taxicab stand you'll get across."

If some people didn't marry in haste they would stay single.  
What we wish is the shadow; what we will is the substance, maybe.

Artisans Who Love Beauty.  
In Lafayette, Ind., the Brotherhood of Painters, Decorators and Paper-hangers has issued a brochure descriptive of their four-story office building erected in that city. The building is in the Italian style of architecture—peculiarly appropriate for the home of an organization interested in the decorative arts. It is stated that the "color effects attained in the building are evidence that this age has developed not only marvelous materials to work with, but the artistic genius to put these materials together beautifully."

Speaking of Farms.  
I was out with a number of young married people who were talking about farm improvement. One man spoke of having to buy a silo, and said they cost so much.  
Of course, I thought it was like a thrashing machine and said: "Why can't you borrow one?"  
Every one started to laugh. Then they explained to me what a silo was.—Exchange.

Sweet Simplicity.  
He (lovingly)—What would you do now if I should kiss you?  
She (timidly)—I—I don't know. I have never had to answer such a question before.—Barcelona L'Esquella de la Torratxa.

The only thing that acts more boyish than a boy is a man.

While the Money Lasts.  
North—"A fool and his money are soon parted." West—"But until they're parted he's not a fool."

## William found a pocketbook But the string jerked it back

It looked like a happy discovery as it lay there on the sidewalk—until the discoverer reached to pick it up. Then the hidden string jerked it away. All William got was disappointment.

That's the way a good many people have found it to be with the comfort and cheer they thought they had secured in tea and coffee. When they came to depend on it—there was a hidden string, and nothing left but disappointment.

The drug, caffeine, in tea and coffee, is a nerve stimulant. Constant stimulation of the nerves often produces rebellion that takes the form of sleeplessness, headaches, irritability, high blood pressure. That's the string to tea and coffee.

Postum, that wholesome and delightful cereal beverage, is completely satisfying and there's no harmful quality whatsoever, to jerk away the comfort which you find in this splendid table drink. Any member of the family may enjoy Postum with any meal—and there will be no after-regrets.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes. Sold by grocers.

**Postum for Health—"There's a Reason"**  
Made by Postum Cereal Co., Inc., Battle Creek, Mich.

## RURAL NEWS

## TREVOR

Mr. and Mrs. Charley Hazelman are occupying the house which they bought of the John Pitcher estate.

James Carey, of Wilmet, was in town, Monday.

The following catechumens will be examined and confirmed in the Lutheran faith next Sunday at the Evangelical church: Leslie Knud-Luth. Friedenswaldt, Lawrence Stenzel, Pearl Schuelke, Ellen Knud-Stenzel, Pearl Schuelke, Lucille Hanke, Elsie Rieman, Henrietta Hanke, Marguerite Schuelke, Lucille Hanke. Services begin at 9:30 a. m. next Sunday.

On Good Friday there will be special services in the German language at 10 a. m.

Mr. and Mrs. Charles Bruel moved to Silverlake the first of the week where Mr. Bruel will have charge of the Consumer's N. W. ice house.

Georgia Bruel and Marie Courtney, of Whitewater, and Fannie Bruel, of Chicago, spent the week end at the Geo. Bruel home.

Emma Kruckman, of Kenosha, was a guest of Mr. and Mrs. Frank Kruckman several days last week.

Mrs. Ludman, of Chicago, spent the week end with her daughter, Charlotte, at the Geo. Bruel home.

Mrs. Faber, of Gary, Ind., is spending several weeks with Mr. and Mrs. C. Bruel.

Mrs. Wm. Volbrecht entertained at a dinner and cards in honor of the birthday of her sister, Mrs. J. Motley, on Thursday. The guests were Mesdames John Nett, L. Phillips, H. J. Boulden, T. C. Loftus, E. E. Wright, G. Dean and W. Carey.

Walter E. Carey and James Daugerty spent Sunday in McHenry.

The Holy Name church will give a dance at the Columbia Hall at Silverlake Easter Monday, April 17. Refreshments will be served and Percy Rowell's orchestra, of Kenosha, will furnish music for dancing. Remember the date.

In spite of the inclement weather of the past weeks work on Wilmot's ball park has been pushed right along and the park and grandstand are expected to be finished ahead of schedule as the grandstand is now half done. The stand will comfortably seat over 600 so that the spectators who plan on attending the thrilling games booked here for the coming season will be assured of every convenience for their personal comfort. A force of twenty men were at work the latter part of the week rushing the work to its completion.

Parent-Teachers' Meeting.

The Parent-Teachers association of the U. F. H. School is sponsoring a very interesting entertainment for the evening of Tuesday, April 18, to be given at the M. W. A. hall. A clever vaudeville sketch, "Foiled by Heck" will be put on for one number.

Mrs. A. J. Williams, a graduate of the Elmwood Conservatory of Elocution, of Buffalo, a branch school of the Boston school of elocution, will direct the sketch. Six of the local amateurs of tested ability have consented to appear in the parts. The part of Reuben Hanks, a self-made man, will be taken by Frank Burroughs. Mrs. Mathilda Hanks, his wife, who did the rest, has been assigned to Mrs. A. J. Williams. Their perfectly lovely daughter, Irene Hanks, has been given to Violet Beck. Clarence Codd, a hero in homespun, will be acted by Arthur Panknin. Vera Schuelke is to have the part of Olivia de la Vere, a plaything of fate, and Lynne Sherman, with a Viper's heart, will take the role of the deep dyed villain of the plot, Sylvester Brewster. The sketch is very snappy and up-to-date and will prove most popular.

A second sketch, a detailed account of which will appear later, is to be put on by George Dowell and his son Dwin. "Enuf Said" to assure the success of this part of the program. It has been sometime since Mr. Dowell or Mr. Burroughs have appeared on the Wilmot stage where

they were both great favorites and their appearance alone will be a big drawing card.

The musical numbers have not been all arranged but a selected group of songs will be given by Mrs. T. Staver a postgraduate of the Emma Willard college, of Troy, N. Y. Mrs. Staver has a very pleasing mezzo soprano and her contribution promises to be very good.

The American Sand & Gravel Co. opened up their pit for the summer season on Monday.

A rousing meeting of the people of the school district was held at the auditorium of the U. F. H. school Monday night to plan the building of a gymnasium for the high school.

Prin. R. Ihlenfeldt was nominated as chairman for the evening and Mrs. F. Westlake as secretary. The question of building the gymnasium was put before the meeting and after a lengthy discussion a motion was made and carried to build a gymnasium to be under the supervision of the U. F. H. school. It was decided to put up a two story building 40x80, the basement to contain a dining room, two dressing rooms and two showers. The main floor to have a seating capacity from 300 to 400 and a permanent stage.

Two committees were appointed, Louis Hegeman as chairman of the finance with Lynne Sherman and Ermine Carey as the other members. Prin. Ihlenfeldt was made chairman of the building committee and twelve names were voted from which he is to choose six candidates. Prin. Ihlenfeldt will call a meeting as soon as the building committee is ready to report on its investigations. It is hoped to have this building ready for use by the time the West Kenosha county fair is given.

## U. F. H. School Notes

The Literary society which was organized this year, has been putting on programs every two weeks. The purpose of these programs is not so much to display talent as to develop poise, confidence and ease in pupils.

The programs are by no means elaborate but are so arranged and prepared by the program committee as to offer each student an opportunity to appear before an audience some time during the year. Last Friday the following program was given: Ukelele duet, Rhoda Jedeke and Mary Hoffman; Song of Winter Weather, Wesley Orvis; reading, Astrod Peterson; piano solo, Myrtle Salvin; Young Fellow My Lad, Doris Ganzlin; Patriotism, Stanley Stoxen; violin solo, Marguerite Becker, accompanied by Mrs. Becker; The Village Choir, Thomas Madden; Battle of Blenheim, Stanley Becker; saxophone solo, Wesley Orvis, accompanied by Marian Bassett.

The members of the freshman cooking class have finished their cake lessons and are beginning on meats.

Band practice was postponed last Friday on account of the roads but was held this week.

Guests at the program Friday were Mesdames Becker, Jedeke, Durkee, the Misses E. Carey and I. Rasmussen; the members of the eighth grade of the Wilmot school, Norman Jedeke, Earle and Robert Durkee.

Noon lunches were concluded last week. Ice cream was served to the pupils on the last day.

The sophomore girls are appearing in their new Gingham dresses made in the home economics department.

Miss Rasmussen, the Kenosha county nurse, was here the latter part of the week inspecting the school children. Results were fairly satisfactory the greatest fault was found with the teeth.

Thursday and Friday the eighth grade pupils of the Wilmot school took their diploma examinations.

## HICKORY

Gus Drom visited Sunday at D. W. Pullen's.

Mr. Robert Simmons returned to his home at Eagle River, Wis., this week.

Mrs. George Lillatson spent a few days last week at the home of her daughter, Mrs. Emmet King.

Mrs. Jennie Pickles visited last week at the home of her daughter, Mrs. Will Thompson.

Lillian Wills spent Saturday afternoon with Lucille Hook.

Tom Smith spent last week at the home of Mrs. Margaret Smith.

Mr. and Mrs. G. R. White attended the wedding anniversary of Mr. and Mrs. D. M. White last week Thursday. The celebration was held at the Jess Denman home. Thirty-four guests were present.

Curtis Wells and family spent Sunday at A. T. Savage's.

Mrs. C. L. Van Paten is entertaining relatives from South Dakota.

## LAKE VILLA

Mr. D'Armand has a new Dort car.

-learn to Grain in 5 minutes!

## Chi-Namel GRAINING PROCESS

Anyone can transform old and worn soft wood floors and woodwork into exact duplicate of expensive hardwood finishes by Chi-Namel Graining Process.

You can learn to grain with the Chi-Namel Graining Tool in a few minutes. Chi-Namel surfaces are heat-proof and waterproof and will last longer than ordinary hardwood finishes.

King's Drug Store Antioch

Mr. and Mrs. Will Fisher accompanied by Mrs. Dicks made a business trip to Waukegan and Zion City last week.

Frank Nadr was in Waukegan last Thursday on business.

Frank Daube and Albert Reimer were in Chicago over Sunday.

Axel Norien is building a good sized addition to his garage on Fox Lake road and this, together with the new Cannon garage should be able to handle our increasing auto trade in a very efficient manner.

Mrs. Hathaway, who has spent the last three months with Mrs. Sherwood, started last Tuesday for her home in Minnesota.

Mrs. Stalup, who has been visiting the Buford family, has returned to her home in Paris, Mo.

Zan Zenner has come back to his work in the Hussey and Weber lumber yard for the summer.

Mrs. Martin of Allendale farm is spending the week with Chicago relatives.

Dorothy D'Armand is spending some time at Libertyville with her nurse, as her wound still demands attention. They went Wednesday.

Mrs. James Atwell is improving slowly. Mrs. Glosser of Maywood is still with her.

Walter Douglas is home from Lake Forest academy for a short visit.

Mrs. Emma Hall of Cincinnati, came last week with her two children for a visit with her people, the Koppen family.

The L. V. T. Commercial association held a meeting last Wednesday evening and elected the following officers: President, Wm. Marks; Vice President, F. T. Fowler; Secretary, C. W. Corson and Treasurer, D. R. Manzer.

Miss Marie McKenzie returned to the city Friday evening and she and her brothers who have positions there, will keep house.

Mr. and Mrs. Fred Hamlin spent last Saturday and Sunday in Oak Park.

Clayton Hamlin returned home on Monday after an absence of more than two years with the A. E. F. in Germany. He will spend some time with relatives and friends before returning to his army duties.

April seems to be full of elections and in thinking of the more important ones, do not forget our district school election on April 15, at the school house.

Despite the inclement weather last Friday evening there were fifteen men present at the get-together supper at the church.

Easter number of the Church Courier will be distributed Saturday, April 18th.

There will be special services held during the week preceding Easter Sunday. There will be seven consecutive talks and discussions on the general subject of "What is the meaning of Christianity for today?" These will begin Palm Sunday morning and continue for each night in the week except Tuesday and Saturday. The aim of these meetings is that we may together realize the simple and practical teachings of Christianity and how these bear upon the life of the year 1922. A number of the business men have signified their intention of attending the entire series. Every home should be represented every time. Plan to attend the entire series. The subjects

## System In Your Savings

Make your bank book show some headway for every pay-day. The man who cultivates a systematic savings habit when young reaps prosperity and happiness when old.

Why not figure now just how much you could put away every pay-day, then start your savings system by opening an account with us on next pay-day.

## Wallace Reducing Records

You may fairly ask: "How do I know the Wallace course will succeed in my own individual case?" Because it employs only natural methods. There are no exceptions to Nature's laws. Reversing the conditions which create fat—will destroy it. If you follow my instruction, your body will assume normal proportion just so surely as water seeks its level.

"Wallace's course has already reduced me 14 lbs. I can't say enough for your course as it has done wonders for me in the way I feel as well as look. My husband said, even before I started my fourth lesson that it was well worth the price."

RUBY WELLS, Oakland, Ill.

Wallace Reducing Records May Be Purchased at

## WM. KEULMAN'S JEWELRY STORE

ANTIOCH, ILL.

and time of meetings are as follows:

Sunday, April 9, at 11:00 a. m. "The Meaning of Jesus."

Sunday, April 9, at 7:30 p. m. "The Meaning of God."

Monday, April 10, at 7:30 p. m. "The Meaning of the Bible."

Tuesday, April 11, at 7:30 p. m. "The Meaning of the Kingdom of God."

Thursday, April 13, at 7:30 p. m. "The Meaning of the Church."

Good Friday, April 14, at 7:30 p. m. "The Meaning of Sin and Salvation."

Easter morning, April 16. "The Meaning of the New Life."

Does it make any difference what I believe? What can I believe? Plan to attend these services.

## TO GROW EARLY CABBAGE

Cabbage is one of the most desirable of our early green or leaf crops and should be included in every home garden. The seeds should be sown indoors and the plants set in the garden about the time that danger of frost is past, or a few plants can be purchased from the seed store. Cabbage requires a rich soil, and the plants of the smaller early sorts should be set 18 inches apart in each direction for hand cultivation. It is a good plan to pour a little water around the roots of each plant as it is being set in the garden.

Let Us Listen.

Let us listen only to the experience that urges us on; it is always higher than that which throws or keeps us back.—Maeterlinck.

## Dr. Hedger's Talk Pleases Woman's Club

(Continued from Page 1)

school children, for hospital beds, for community houses built and maintained for playgrounds and recreation centers, for milk for tubercular patients in the hospitals, for records and working material for convalescent soldiers and sailors in the military hospitals, all this we hear and we ask, "How is it done?" The answer is—bakeries, sales, concerts, card parties, dramas, plays, any and all legitimate fund raising plans are utilized that best meet the capabilities of the women behind them.

These reports are suggestive, since what one club has done another can do. Truly the women of the land are coming into a broader life. Every generation has a wider outlook—a deeper insight. Susan B. Anthony said years ago—"Woman has been faithful over a few things, The Lord will make her ruler over many things." The Woman's clubs are powers for good.
